

Household hazardous wastes come from many common products you use in your home. These products are identified by the following key words: **WARNING**, **CAUTION** and **DANGER**. If a container has any of these words, its contents may have ingredients that are corrosive, toxic, reactive or flammable. Right now, these wastes can still be tossed in the trash or flushed down the drain.

To commemorate Earth Day,
Heritage Thermal Services is sponsoring a
collection of household hazardous wastes for
residents of the East Liverpool area.
We will accept waste on:

Saturday, April 30
8 a.m. to Noon
1250 St. George St.
East End
Rain or Shine

BEFORE YOU BRING YOUR MATERIAL:

- Check all containers, making sure lids are tight
- Be sure all products are labeled
- Driver's license/photo ID required
- Except for used automotive fluids, all waste must be in original consumer packaging
- Pack in a sturdy container, lining it with newspaper or kitty litter
- Wrap leaking containers in clean plastic and pack in a container with kitty litter
- Do not mix different or unknown materials together
- Never eat, drink or smoke while handling these materials
- Drive carefully with the materials stored in the trunk or truck bed

Smoking, trailers and propane tanks are not permitted, and you must remain in your vehicle.

Up to 20 gallons or 35 pounds of household hazardous waste per vehicle may be accepted

Materials we can take are:

- Household cleaners -- ammonia, bleach and cleaners used for carpets, drains, toilets, furniture and other household uses
- Lawn and garden chemicals -- pesticides and herbicides
- Pool chemicals
- Aerosol cans and antifreeze
